OVERLAND ANNOUNCES 1200 POUND DELIVERY CAR, A LARGE ROOMY MODEL SURE OF READY SALE

An abundance of strength to withstand the roughest roads and surplus of power to insure delivery in all sorts of weather, at minimum cost of operation—these are the leading features of the Overland 1200 Pound Delivery Car a new, big, roomy entry among the Delivery Cars manufactured by The Willys-Overland Company at Toledo, Ohio. This new model is a completely equipped motor vehicle retailing at \$77.00 f. o. b. Toledo. The spacious body, containing 120 cubic feet, is constructed of pressed steel, with hard wood flooring; 2-inch metal flooring strips add to the ease in loading and unloading; the top is solid with stake supports, and the car is equipped with storm curtains which give ample protection to the driver and merchandise.

It has a capacity of 1200 pounds and two passengers. This model is equipped with one of the best starting and lighting systems on the market. This avoids much of the endless waste of fuel which results when the driver of the car with no electric starter leaves his motor running while making deliveries from the car to the house. Practically all drivers will do this rather than hand-crank the motor after each stop; although the expense in one instance of this kind might be trivial, repetition of it at each delivery compels serious attention. The starter alone means a saving of fuel. The lighting system also eliminates a waste of time. All the driver of the new 1200 pound Delivery needs to do is to press a button to light his lamps.

Another feature of this delivery model not found in the average low-priced delivery vehicle is the large size tires—4½-inch tires are larger than are furnished with other cars of the same weight and power, and insure maximum service at lowest cost. The small difference in tire size frequently means a big difference in mileage.

The new product has a floor length of 77¼ inches and a floor width of 44 inches, or 54½ at the top of the flare boards. The height of the side panels is 15¼ inches, with a 13 inch tail gate supported by chains. The body measures 56 inches from the floor to the top.

The motor in this delivery car is a 4 cylinder enbloc motor, capable of developing 35 horse power. This motor—one of the best ever manufactured by the Willys-Overland plant—is the result of years of experiment and development. In brief, the specifications include:

Thermo-syphon cooling system, High-tension magneto ignition system, Constant level splash lubricating system, Tillotson carburetor with hot air attachment, Selective sliding gear transmission, Large and powerful brakes, ample for a much heavier car, Semi-elliptic front and rear spring, Artillery type wheels, Complete accessory equipment.

PURE BRED JERSEYS TO BE PLACED IN THE STATE

Mr. A. J. Reed of the Office of Dairying and Farming of the Animal Industry Division, announces that the services of a field man has been secured to place Jersey Cattle in the State. While at the Na-

tional Livestock Show at Springfield, Massachusetts, Mr. Reed succeeded in interesting the Jersey Cattle Club in North Carolina to the extent that they will send Mr. R. L. Pike to look over the prospects for increasing the number of pure bred Jerseys in the State.

Mr. Reed will personally accompany Mr. Pike around over the Dairy section in an effort to show him the great strides North Carolina is taking in developing this branch of Livestock farming. Other members of the Extension Service will then accompany Mr. Pike to localities in which they are familiar with conditions. It is then expected that the County Agents will take him in charge in an effort to make the use of pure bred dairy cattle more general.

Mr. Pike will arrive around the first of November and a carload of Jerseys will be shipped soon after. The first consignment will go to Ridgeway where the farmers have been demanding Jersey Cattle for some time. About one-half of the shipment will be left at Ridgeway and the remainder will be brought to Raleigh.

Mr. Pike is regular field representative of the Jersey Cattle Club and is secretary of the Ohio State Jersey Cattle Club. In addition to this he is also a large breeder of Jersey Cattle himself having about 140 head on his own farm in Ohio. It is expected that this tour of the state will result in much valuable information being given the farmers in the care and handling of Jersey Cattle, and that the breed will become familiar in dairy and butter points in the state.

No. 666

This is a prescription prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c

NOTICE OF SALE.

By virtue of power vested in me as Administratrix of John H. Ausbon, I will, on Saturday, the 25th day of November 1916, sell to the highest bidder, for cash, at public auction, in the town of Scotland Neck, North Carolina, at 2 o'clock, in front of the store which was rented by the late John H. Ausbon, the following personal property:

All of that stock of groceries and fixtures, including show cases, scales, etc., in that store which was occupied by the said Ausbon, also a beautiful bay horse about six or seven years old, stylish, fast and a good driver, also a good top buggy, buggy and harness, and other personal property.
This the 2nd day of November 1916.
MRS. COTTIE EVERETT,
Administratrix of John H. Ausbon.

S. A. DUNN, Attorney.

Such tobacco enjoyment

as you never thought could be is yours to command quick as you buy some Prince Albert and fire-up a pipe or a home-made cigarette!

Prince Albert gives you every tobacco satisfaction your smoke-appetite ever hankered for. That's because it's made by a patented process that cuts out bite and parch! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

PRINCE ALBERT

the national joy smoke

has a flavor as different as it is delightful. You never tasted the like of it! And that isn't strange, either.

Buy Prince Albert everywhere tobacco is sold in tippyred bags, 5c; tidyred tins, 10c; handsome pound and half-pound tin humidors—and that corking fine pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such clever trim—always!

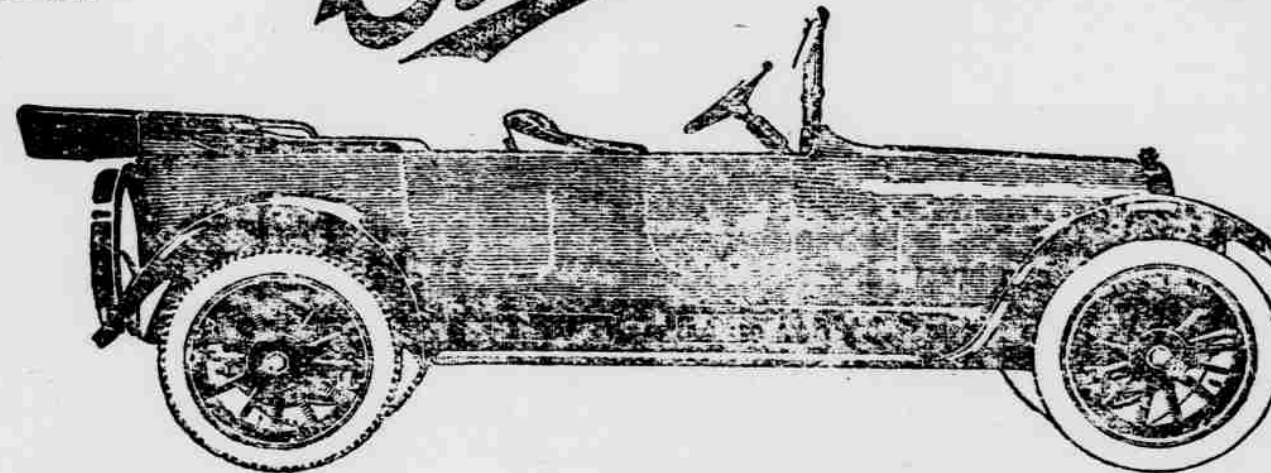

Men who think they can't smoke a pipe or roll a cigarette can smoke and will smoke if they use Prince Albert. And smokers who have not yet given P. A. a try-out certainly have a big surprise and a lot of enjoyment coming their way as soon as they invest in a supply. Prince Albert tobacco will tell its own story!

Luxurious Bigness!

A big roomy car is luxurious—no two ways about it.

But extra inches in an automobile cost hundreds of dollars—as a rule.

It took an investment of millions in facilities for tremendously increased production—

To effect the economies necessary to produce luxurious size at this price.

The wheelbase is 112 inches—

The seats are comfortable and roomy and there's plenty of leg room front and back.

And your further luxurious comfort is assured by cantilever springs, big four-inch tires and balanced weight—the gasoline tank is at the rear.

Beautifully finished!—every convenience!!

Price \$795!!!

Model 85-6, six cylinder, 35-40 horsepower, 116-inch wheelbase—\$925.
